Dear Parent and/Guardians,

What a great year we have had at Babeck. It is hard to believe that the year is over and the students are gone. I am so proud of all the hard work of our staff and students. The students have grown so much since the beginning of the year. I will miss all the students and wish them the best next school year.

Highlight of the year:

We have had a lot of great things happen this school year. The highlight of the year is Babeck Elementary becoming a NFL Play 60 Super School. Babeck has received \$10,000 to be used to promote physical activity and healthy living. We have purchased playground equipment for the students to use and we will be sending some of this equipment with the students to use at their school next year. We also have purchased equipment that will be installed on the current playground at Babeck to be used for next year's students and also for the community.

BENGALS VISIT BABECK:

For winning the NFL Play 60 grant, we had a special visit from 3 Cincinnati Bengal players. Chinedum Ndukwe, Dhani Jones, and Keith Rivers came to visit our school and participate in an "Ultimate Gym Class" with 50 students. Our school was also featured in Sports Illustrated and in the NFL Play 60 commercial. It was an exciting day for all of our staff and students.

Next school year, Babeck will become an early childhood center

with grades Preschool, Kindergarten, and 1st grades. I am looking forward to working with your child next year. It will be an exciting time for all students.

Beginning next school year there will be changes made district wide on starting and ending times. We will begin at 8:40 AM and end our day at 3:45 PM. Students can enter the building at 8:15 AM and that is when breakfast starts as well. There is no supervision prior to 8:15 AM. Thursdays will be late arrivals with school starting one hour later (9:40 AM). This will begin Sep. 1st next year. This will give our staff the opportunity for some professional development. A strategic goal for Edgewood City Schools is to continually improve academic success for all students. After researching high performing schools, we feel strongly that the changes made to the academic day will play a major role in helping us meet this goal. All Edgewood buildings will have a 7 hour 5 minutes school day.

JIM BASKETBALL JONES COMES TO SEVEN MILE

In April, Seven Mile welcomed Motivational Speaker Jim Basketball Jones. The theme was "Finding the Gold in Others". Jim's Bully-Free school assembly focuses on lifting others up instead of cutting them down. Jim Basketball Jones encourages students to look for the good in others and to treat people the way you want to be treated. Jim also goes one step further by teaching students to understand and accept the differences in others, so we can treat others the way "they" want to be treated.

Jim was diagnosed with dyslexia in kindergarten, a disability that he has used as a reason to work harder and be successful, instead of an excuse to fail. His positive attitude and determination along with his passion for excellence has been the primary reason why so many organizations request Jim to present and the students really enjoyed it.

TALES FROM AN ADMINISTRATOR

Whew...my first year is over here at Seven Mile and oh what a year it was! Meeting new staff, students and teachers was overwhelming at first, but I quickly learned names and faces. I also learned quickly some "need-to-know" things, such as where is the closest fridge, restroom and coffee pot. I am extremely lucky to be part of the Edgewood City Schools and I look forward to many years to come. The staff at Seven Mile has been extremely kind to me and I thank them for that. Every day as I walk down the halls of Seven Mile, it is a joy to see all of the teaching and learning taking place. Teachers here make learning FUN and that is key. Thanks again and I look forward to the 2011-2012 school year.

RICK SMITH JR. COMES TO SEVEN MILE TO SHOW HIS ABILITY TO "THROW CARDS"

In November, as a reward from our Fall Fundraiser, students got a chance to see Rick Smith, Jr. who appeared on the show "America's Got Talent" for his card 'throwing' tricks. Students loved seeing him and a lot of our students got to help him do some tricks! This was a great day and all of the students enjoyed it.

Rick Smith Jr. gained international notoriety when he broke the **Guinness World Record** for distance playing card throwing on March 21, 2002. His record-breaking throw was an amazing 216 feet 4 inches, which topped the previous record by over 15 feet! The throw was performed at the Cleveland State University Convocation Center in downtown Cleveland, Ohio, USA, and can be seen on YouTube.

Besides throwing cards amazing distances, Rick is known for amazing accuracy, speed, and power. In his numerous television appearances, Rick can be seen slicing bananas, carrots, celery, and other objects in half with ease.

PUMPKIN CONTEST

In October, Seven Mile students really had a challenge when they were to dress up a pumpkin like their favorite book character. We had so many great designs and even some that were very funny like Captain Underpants! Students went out of their way this year and we had wonderful pumpkins to display. Kids got a chance to look at one another's pumpkins and teachers voted for their favorite. This has always been a great way for students who love to be artistic show their true talent.

HOLOCAUST SPEAKER: YOU CANNOT WALK AWAY

Holocaust Survivor Werner Coppel spoke to a large gathering of Edgewood High School students in the EHS auditorium on April 21st, 2011. Mr. Coppel's message to our students was clear, "You cannot walk away from hate and prejudice."

Mr. Coppel described his experience under the Nazi policies of discrimination against Jews, beginning with lost opportunities for work and school, but eventually resulting in his internment in the infamous Auschwitz Concentration Camp where he worked as a laborer. Mr. Coppel spoke passionately about his desire to use his story to teach our younger generations about the evils of hate and prejudice. He compelled students to "stand up to hate and prejudice even if it does not affect you."

Mr. Coppel was born in Germany in 1925 and experienced Nazi anti-Jewish policies throughout his youth. In 1943 he was arrested and sent to Auschwitz. As the Russian Army advanced through Poland in January 1945, Mr. Coppel escaped from a prisoner Death March. He and his family arrived in Cincinnati in August of 1949.

Mr. Coppel serves on the board of The Center of Holocaust and Humanity Education. He has widely lectured at schools, churches and civic groups about the Holocaust and its lessons.

ROOM 115 HAD A GREAT YEAR!

Our focus is functional academics, life skills and vocational training. When asked what the “highlights” of the year were, our students recalled the following:

At the beginning of the school year we requested that friends and family throughout the United States send a postcard to our class representing the state they lived in. Our class received a total of 22 postcards and studied each state as the cards arrived.

Throughout the month of December we studied “Christmas Around The World” and collaborated with the Spanish, French and German departments to learn customs and hear traditional carols sung! We ended the unit with a “Taste Around The World” by visiting Jungle Jim’s and assigning each student a continent for which they selected a food or drink for the class to try! The students were very adventurous!

Throughout the school year we participated for an hour a week off-campus doing work study on community job sites. These experiences, learning real-life job skills, are invaluable to our students. Thank you to the following businesses in our community for allowing us to partner with them: Walgreens, UDF, Dad’s, Gold Star, The City Building, TNT and Dominoes.

Science experiments!

We hosted a Spring Party for the students in the MH classrooms at Bloomfield. The younger students came to the new gym at the high school where each of our high school students had set up stations with activities for them. Following an egg hunt, we then ate lunch and played together before returning to class in our respective buildings. It was amazing to see the older students taking leadership roles with the younger students. A good time was had by all!

Day Hab visits! Much like “typical” juniors and seniors visit colleges, we have begun visiting day habilitation and work training programs in our area that may be appropriate for our students when they complete their high school program. Parents are joining us as we explore these options, and we will continue these visits in the fall.

Last but not least, our chick project! With parental permission, we purchased fertilized eggs from Mount Healthy Hatchery and incubated them for 21 days. Our students were able to watch as the baby chicks hatched, and then, a few days later, were able to hold the chicks before they were relocated to a local farm. Watching the expressions on the students’ faces throughout this experience was priceless!

We have already begun planning for next year and are excited to welcome our incoming students from the middle school.

THE 2011 EDDEWOOD HIGH SCHOOL “FRESHMEN EXPERIENCE”

Edgewood High School is creating an academic setting to help ensure that the students who enter our school acquire the tools necessary to continue to enjoy success.

What is The Freshmen Experience?

- A Freshmen Experience is a smaller learning community.
- It helps students adjust to high school.
- Students will be linked to specific core teachers in English.
- Teachers work together to assist students with their progress in school.
- It creates a sense of community for the students.

Mission:

Edgewood Cougar Freshmen Success Academy will create a caring and supportive environment that eases the transition into high school. With the partnership of teachers, students, and parents, we will foster and encourage students to value academics and life-long learning coupled with their planning for post-secondary life.

Program Goals:

- Increase academic performance as evidenced by reduced failure in core courses.
- Increase collaboration between teachers, students, and parents.
- Increase student attendance rate.
- Increase student involvement in co-curricular school activities.
- Increase student awareness and involvement in Community Service Projects.
- Decrease the number of discipline referrals received by freshmen.

Why create the Freshmen Experience at Edgewood High School?

- The Freshmen Experience helps students reach their full potential.
- Students do better as freshmen if the school offers them greater assistance.
- Students who do well their first year are more likely to succeed throughout high school.

Academics in The Freshmen Experience:

Students will be enrolled in the same curriculum as the rest of the student body. However, these students will be assigned a core group of teachers in their main academic areas. The teachers will be able to work together to plan lessons and to monitor student achievement.
